Colbert, WA 99005

Dear Dr. Hooks:

Congratulations on receiving the Dept. of Ecology Public Participation Grant. To start your New Year off right, I have enclosed the Phase 1 Engineering Report for remedial design at the Colbert Landfill. This will provide some work for your technical advisor. In the future, Neil Thompson or I will be coordinating with the Dept. of Ecology to ensure that your committee will receive technical documents to assist you in getting information out to citizens in the area.

We look forward to continuing and improving our relationship with your committee throughout the remainder of the project. Also we look forward to meeting your technical advisor and working with them in the future.

Please feel free to contact Neil Thompson or myself at any time to discuss the cleanup activities at Colbert Landfill. Neil can be reached at (206) 553-7177 and I can be reached at (206) 553-1283 or call our toll free number at 1-800-424-4372.

Sincerely,

Grechen F. Schmidt
Community Relations Coordinator
